GitHub: <https://github.com/samplegithubbright>

LinkedIn: <https://www.linkedin.com/in/chandan-yadav-3b059b258/>

PROFESSIONAL SUMMARY

AI & Full Stack Developer with experience in developing scalable web applications, AI-powered chatbots, and SaaS platforms using React.js, Next.js, Node.js, Python, FastAPI, and MongoDB. Skilled in frontend and backend development, API integration, authentication systems, database management, cloud deployment, and Generative AI solutions. Experienced in building production-ready applications, integrating LLMs, and optimizing application performance. Strong problem-solving skills with a passion for developing innovative AI-driven products.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, SQL, C++

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, ShadCN UI, Framer Motion, Responsive Design

Backend: Node.js, Express.js, FastAPI, PHP, REST APIs, Authentication & Authorization, JWT, NextAuth.js

Databases: MongoDB, PostgreSQL, MySQL, Supabase, Firebase

AI & Machine Learning: Generative AI, Open AI, Embeddings, Vector Databases (Pinecone, ChromaDB), Large Language Models (LLMs), Ollama, Hugging Face Transformers, Prompt Engineering, RAG-Based Chatbots, LangChain, LangGraph, Agentic AI

Cloud & DevOps: Docker, Git, GitHub, GitHub Actions, Vercel

Core Computer Science: Data Structures & Algorithms (C++), Object-Oriented Programming (OOP), Problem Solving, Time & Space Complexity Analysis

Tools: VS Code, Postman, Jupyter Notebook

PROFESSIONAL EXPERIENCE

AI & Full Stack Developer

Royalfinity Technology | March 2026 – Present

- Developed scalable AI-powered applications and modern web platforms using React.js, Next.js, Node.js, FastAPI, MongoDB, and PostgreSQL.
- Built real-time dashboards, admin panels, and business management systems.
- Integrated Ollama-based AI models and LLM workflows into production applications.
- Implemented secure authentication and role-based access control systems.
- Optimized API performance and enhanced application scalability.
- Managed database design, optimization, and maintenance for production environments.
- Deployed and maintained applications using Vercel and modern development workflows.
- Collaborated with cross-functional teams using Agile methodologies and Git workflows.

AI & Full Stack Developer

Mobiloitte Technologies | December 2025 – March 2026

- Developed full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Integrated AI chatbot solutions and automation workflows into web platforms.
- Built secure authentication systems using NextAuth.js and JWT.
- Designed and implemented scalable REST APIs.
- Developed responsive and modern user interfaces using Tailwind CSS and Framer Motion.
- Participated in debugging, testing, deployment, and code review processes.

PROJECTS

AI Chatbot Platform

Tech Stack: Next.js, FastAPI, Ollama, MongoDB, Langchain, LangGraph

- Developed a ChatGPT-style AI assistant with contextual responses and conversation memory.
- Integrated Ollama-based LLMs using FastAPI.
- Implemented authentication, chat history management, and responsive UI.
- Designed scalable architecture for AI-powered interactions.

AI Chatbot & AI Voice Callbot

Tech Stack: Python, LangGraph, OpenAI API, Vapi, Twilio, FastAPI

- Developed an AI-powered chatbot and voice callbot capable of handling real-time customer interactions through chat and phone calls.
- Built multi-step conversational workflows using **LangGraph** for context-aware and intelligent conversations.
- Integrated **OpenAI API** for natural language understanding, response generation, and task automation.
- Used **Vapi** and **Twilio** to enable AI voice assistants with inbound/outbound calling capabilities.
- Implemented conversation memory, intent recognition, and automated query resolution to improve user experience.
- Developed REST APIs with **FastAPI** and integrated backend services for seamless chatbot and callbot operations.
- Enhanced response accuracy through prompt engineering and workflow optimization.

Full Stack E-Commerce Platform

Tech Stack: Next.js, MongoDB, Tailwind CSS

- Developed a complete e-commerce application with authentication and admin dashboard.
 - Built scalable REST APIs and backend architecture.
 - Integrated product management and order management systems.
 - Designed responsive and user-friendly interfaces.
-

EDUCATION

Bachelor of Technology (B.Tech)

Greater Noida Institute of Technology (GGSIPU)

2025 | CGPA: 8.4/10

CERTIFICATIONS

- Machine Learning with Python – Coursera
 - Data Analysis with Python – Coursera
 - Python Programming – Coursera
-

ACHIEVEMENTS

- Developed and deployed multiple AI-powered web applications and chatbot solutions.
- Built scalable full-stack applications using modern JavaScript and Python technologies.
- Integrated LLMs, RAG systems, and AI automation workflows into production-ready applications.
